RECEIVED
CENTRAL FAX CENTER**APR 08 2005**REQUEST TO WAIVE FEE FOR REVIVAL OF ABANDONED APPLICATION

Applicants herein request that the fee for the petition for revival attached hereto be waived, or in the alternative, be reduced to the fee associated with a petition for revival for unavoidable delay due to the following.

A Final Office Action regarding this application was mailed to applicants on August 6, 2004. Applicants' representative had an office interview with the examiner on October 6, 2004 and discussed the rejection in some detail. At the conclusion of the interview, applicants' representative told the examiner that a response to the Final Action would be filed on that day. Applicants' representative filed the response on October 6, 2004 at the Office of Initial Patent Examination window pursuant to direction by the examiner.

Section 714.13 of the MPEP states that in the event a response to a Final Office Action is filed within two months of the mailing date of the Action, the date any Advisory Action is sent regarding said response becomes the new reply expiration date. However, the new reply date cannot be more than six months from the mailing date of the Final Action. This section of the MPEP further indicates that any response filed after a

Final Action should be immediately considered. Still further this section of the MPEP indicates that an examiner is expected to turn in a response to a response within 10 calendar days from the time the response is received by the examiner and this reply should be mailed within 30 days of the date of the applicant response is received by the Office. It is obvious that these timing requirements placed upon the examiner to provide an applicant an opportunity to respond to an Advisory Action prior to an application becoming abandoned.

In the present case, applicants filed a response within two months from the mailing date of the Final Action, the examiner was put on notice that the reply was being filed and put on notice of the general nature of the substance of said response. However, the Advisory Action was not mailed until March 15, 2005. Upon receipt of the Advisory Action, applicants' representative telephoned the examiner's supervisor to discuss this matter and left a message describing the situation and requesting a return call to discuss the matter. This telephone call was never returned.

Applicants assert that by mailing the Advisory Action more than five months after applicants' response to the Final Action was filed, the examiner made the above discussed rule (to make the Advisory Action mailing date the new reply date) meaningless and significantly hindered the applicants ability to fairly prosecute the application.

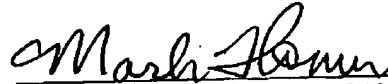

Therefore, applicants herein request that the application be revived and that the petition for unintentional abandonment revival fee be waived, or in the alternative, reduced to the fee associated with a petition for unavoidable abandonment revival.
